

Seascope Pool

TERRAIN SERIES

MOST VERSATILE POOL ON THE MARKET

ABOVE GROUND

SEMI-INGROUND

INGROUND

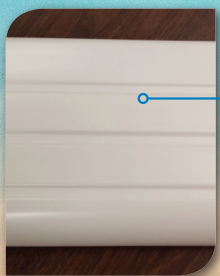

UNSHOPPABLE FEATURES

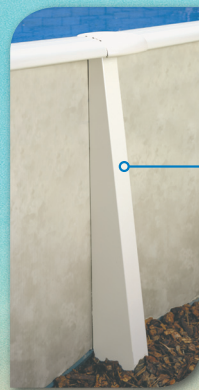

54" WALL WITH RESIN 8" TOP RAILS AND 7" RESIN VERTICALS IN SILVER-TONE.

Seascope walls are made from heavier **copper bearing steel**. 30 to 60 pounds heavier than the competition. Weigh the difference!

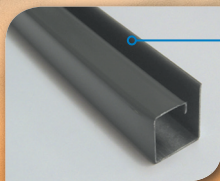

Super steel construction with inground coatings.

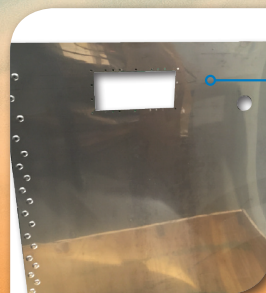

Extruded resin top-rails gives a smooth finish to this beautiful pool.

Compact Inground Supports extend only 9 inches beyond the sidewall, not the standard 36 inches used by competitors. This allows larger pool models in smaller backyards.

Bottom Rails are triple formed and exclusively designed to protect and contain the wall and liner at the bottom of the pool, which is the highest pressure point.

Stainless Steel Service Panel offers 100% gasket sealing capability, lifetime rust and corrosion protection and double wall bolt assembly. (\$469 value!)

SEASCAPE FEATURES

Lifetime Warranties • Proudly Made in the USA

**Stainless Steel Service Panel • Inground Quality Liner & Skimmer
Inground Quality Steel Structure**

AVAILABLE POOL SIZES

ROUND: 18', 21', 24', 27', 30', 33'

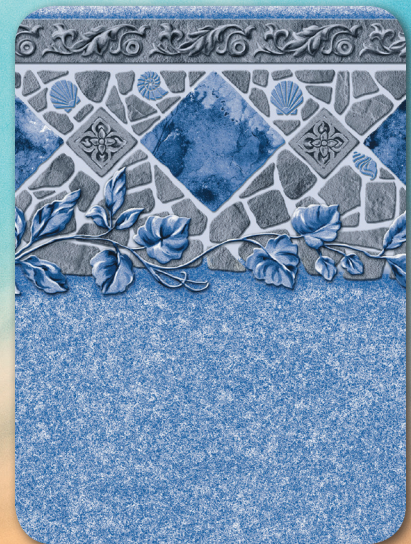

OVAL: 15' x 26', 15' x 30', 18' x 33'

Thru-Wall Skimmer holds twice the water volume that the competition's so called "wide-mouth" skimmers hold and has a basket that is twice the size. This skimmer also has an exclusive vacuum port built into the faceplate enabling direct hookup of vacuums.

EXCLUSIVE LINER FEATURES

- Our liners are measured in mil, a true measurement. Don't be confused by the liner gauge "games" played with most competitor liners. Some will call their liner 20 gauge when they only measure 10 mil.
- 30%-60% heavier than competitor's liners in both weight and thickness. Contains the same weight and thickness on both the sidewall and the bottom.
- Made of a heavier vinyl material and will last 50%-90% longer than the competition.
- 100% lifetime warranty on all liner seams.
