## SAFETY

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.

SHALLOW WATER: DO NOT JUMP / NO DIVING

## AQUA LEADER

What makes us a leader is what sets us apart.

What makes AQUA LEADER pools stand out is the way we combine unique design quality with practicality, using innovative styling to create smooth round or oval aboveground pools with absolutely no angular joints. We also owe our success to distinctive world-class components that make all the difference, including textured walls, ultra-strong uprights and top rails, solid joints and continuous-curve top seats. At AQUA LEADER, we know how important it is to strike the perfect balance between function and aesthetics... and we have leading pool designs in every market niche to prove it. But that is what you would expect from a company that has been totally committed to research and development in pursuit of the perfect pool since 1975.

## YOUR SUMMER BEGINS WITH THE ATHENA ABOVE GROUND POOL
